### What kinds of information do we Collect?

To provide the MMS Products, we must process information about you. The types of information we collect depend on how you use our Products. The basic information we collect include your biodata which includes your picture before an account can be created. You can learn how to access, edit and delete information we collect by visiting the MMS Account and Settings area.

We collect the content, communications and other information you provide when you use our Products, including when you sign up for an account, create or share content, and message or communicate with others. We don't see the content or messages you share on the application except for testing purposes when there are issues. Our systems don't analyse content and communications you and others share on the MMS platform. In other words, we are just a platform provider which helps to manage church activities between church members and its administration. However, our system occasionally phishes out offensive messages or communication with other members, and such members may be banned from using the account. Every member's bio-data is fully managed by your local church administrators on our secure cloud servers.

Your church administration may regularly send you messages about church updates and events. Periodically, MMS service may send you messages of routine maintenance and important upgrades.
